

Customized 3D Printed Parts $\pm 0.2\text{mm}$ Tolerance

Our Product Introduction

For more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- MOQ: 1 Piece
- Design Software: SolidWorks
- Surface Finish: Smooth
- File Format: STL,IGS,STP
- Application: Industrial
- Printing Layer: 0.2mm
- Post-Processing: Sandblasting
- Color: White
- Highlight: Customized 3D Printed Parts,
Smooth 3D Printed Parts

Product Description

Product Description:

3D Printed Parts are three-dimensional parts created with a process called additive manufacturing. This process involves the use of specialized software and 3D printers to create objects with complex geometries. With 3D Printed Parts, you can create parts with a lead time of 7-10 days, and customize the size as needed. The file format can be STL, IGS, or STP. After 3D printing, post-processing such as sandblasting can be performed to improve the surface finish of the parts. The tolerance of the parts can reach $\pm 0.2\text{mm}$. Our 3D Printed Parts are high-quality and cost-effective, making them an ideal solution for many applications.

Features:

Product Name: **3D Printed Parts**

Application: **Industrial**

Design Software: **SolidWorks**

File Format: **STL, IGS, STP**

Tolerance: **$\pm 0.2\text{mm}$**

Printing Technology: **FDM**

Technical Parameters:

Parameter	Value
Surface Finish	Smooth
File Format	STL,IGS,STP
Printing Layer	0.2mm
Size	Customized
Lead Time	7-10 Days
Tolerance	$\pm 0.2\text{mm}$
Post-Processing	Sandblasting
Application	Industrial
Design Software	SolidWorks
Printing Technology	FDM

Applications:

YWY 3D printing products are a revolutionary way to bring custom designs to life. Our 3D printed parts are designed and manufactured with precision and accuracy, using YWY's advanced 3D printing technology. We offer a wide range of 3D printed parts with a brand name of YWY, model number YWY222, and a place of origin of Guangdong Huizhou. Our parts are designed with a lead time of 7-10 days, and a tolerance of $\pm 0.2\text{mm}$. We accept various file formats such as STL, IGS, and STP, with SolidWorks software for design. We offer our parts in a range of colors, such as white. Our 3D printed goods are durable and reliable, with a quality finish that makes them look and feel like traditional products.

3D Printed Parts are ideal for a variety of applications, from industrial machinery to medical implants. They are also suitable for rapid prototyping and product testing, providing a cost-effective solution for creating complex designs. 3D printing parts are also becoming increasingly popular in the manufacturing industry, as they can be used for both small and large production runs. 3D printed parts are also perfect for creating custom products, from toys to furniture.

At YWY, we provide high-quality 3D printed parts that are designed to meet your exact specifications. Our 3D printing products are reliable, durable, and cost-effective, making them the perfect choice for a variety of applications. With our advanced printing technology and precision engineering, you can trust that our 3D printed parts will meet your exact requirements.

Customization:

3D Printed Parts Customized Service

Brand Name: ywy

Model Number: ywy222

Place of Origin: guangdonghuizhou

Tolerance: $\pm 0.2\text{mm}$

Surface Finish: Smooth

Post-Processing: Sandblasting

Lead Time: 7-10 Days

Printing Layer: 0.2mm

We provide customized services for 3D printed parts, three-dimensional parts and 3D printing products. Our 3D printed parts are made with high precision and accuracy. Our tolerance is $\pm 0.2\text{mm}$ and the surface finish is smooth; post-processing of sandblasting is available. And the printing layer is 0.2mm. The lead time is 7-10 days.

FAQ:

Q1: What is 3D Printed Parts?

A1: 3D Printed Parts is a kind of parts produced by ywy with model number ywy222, which is made in Guangdong Huizhou.

Q2: What material is 3D Printed Parts?

A2: 3D Printed Parts is made of various materials, such as PLA, ABS, etc.

Q3: How long does it take to produce 3D Printed Parts?

A3: It usually takes about 3 to 5 days for 3D Printed Parts to be produced.

Q4: What is the accuracy of 3D Printed Parts?

A4: The accuracy of 3D Printed Parts can reach 0.1 mm.

Q5: What is the size of 3D Printed Parts?

A5: The size of 3D Printed Parts can be customized according to customers' requirements.
