

Acceptable OEM/ODM Brass CNC Machined Parts for High-Performance Production

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: yuanwenyu
- Certification: 1
- Model Number: 1X893, OEM
- Minimum Order Quantity: 50 pieces
- Price: \$2.35 - \$12.68/pieces
- Packaging Details: EPE foam/ Anti-Rust Paper/ Stretch Film/ Plastic bag +Carton
- Delivery Time: 1
- Payment Terms: 1
- Supply Ability: 1000000 Piece/Pieces per Month

Product Specification

- OEM/ODM: Acceptable
- Lead Time: 7-15 Days
- Application: Automotive, Aerospace, Medical, Etc.
- Surface Treatment: Anodizing, Plating, Painting, Etc.
- Size: Customized
- Delivery Method: DHL, FedEx, UPS, Etc.
- Material: Aluminum, Steel, Brass, Etc.
- Packaging: Standard Export Carton Or Customized
- Highlight: **ODM Brass CNC Machined Parts,
High-Performance CNC Machined Parts,
OEM Brass CNC Machined Parts**

Product Description:

Our CNC machined parts are made from high-quality materials such as aluminum, steel, brass, and others, ensuring durability and longevity. We employ advanced manufacturing techniques to produce parts with precise dimensions and tolerances as low as $\pm 0.01\text{mm}$, ensuring that they meet even the most demanding requirements.

At our company, we understand that time is of the essence in the manufacturing industry. That's why we offer fast and reliable delivery methods such as DHL, FedEx, UPS, and others. Our lead time is only 7-15 days, allowing you to receive your parts quickly and get your project back on track.

Our CNC machined parts are manufactured using state-of-the-art equipment and the latest technologies, guaranteeing accuracy and precision. We have a team of skilled professionals who are dedicated to ensuring that our customers receive high-quality parts that meet their exact specifications.

Whether you need CNC machined parts for prototyping, production, or repair, we have the expertise and resources to meet your needs. Contact us today to learn more about our CNC machining services and how we can help you with your project.

Features:

Product Name: CNC Machined Parts

Material: Aluminum, Steel, Brass, Etc.

Lead Time: 7-15 Days

Processing Method: CNC Machining, Turning, Milling, Etc.

Surface Treatment: Anodizing, Plating, Painting, Etc.

Size: Customized

Our CNC Machined Parts are high-quality components manufactured through CNC machining, turning, milling, and other processes. They are made of durable materials such as aluminum, steel, brass, and more. We offer a variety of surface treatments, including anodizing, plating, painting, and more, to meet your exact specifications. With a lead time of 7-15 days, we can provide you with customized CNC-manufactured components that meet your unique needs.

Technical Parameters:

Technical Parameter	Description
Product Name	CNC-machined components
Other Names	Computer-aided machining parts, Numerically-controlled machining parts
Packaging	Standard Export Carton Or Customized
Drawing Format	PDF, DWG, IGS, STEP, Etc.
MOQ	1 Piece
Lead Time	7-15 Days
Application	Automotive, Aerospace, Medical, Etc.
Material	Aluminum, Steel, Brass, Etc.
OEM/ODM	Acceptable
Surface Treatment	Anodizing, Plating, Painting, Etc.
Tolerance	$\pm 0.01\text{mm}$
Size	Customized

Applications:

Our CNC machined parts are made of high-quality materials such as aluminum, steel, brass, and others. They are designed to be customized to fit your needs, with sizes that are tailored for your specific requirements. Our products have a tolerance of $\pm 0.01\text{mm}$, ensuring that they meet the highest standards of quality and precision.

Our CNC machined parts are certified, and we offer a minimum order quantity of 50 pieces at a price range of \$2.35 - \$12.68 per piece.

Our packaging details include EPE foam, anti-rust paper, stretch film, plastic bag +carton, ensuring that your products are safe during shipping. We have a quick delivery time of 1, and our payment terms are flexible, ensuring that you can get the best deal possible.

Our CNC machined parts are suitable for a variety of applications, including but not limited to:

Automotive industry: Our CNC machined parts are perfect for use in the automotive industry. They can be used to manufacture parts such as engine components, transmission parts, chassis components, and other critical parts.

Aerospace industry: Our CNC machined parts are also suitable for use in the aerospace industry. They can be used to manufacture parts such as aircraft engines, landing gears, and other critical components.

Medical industry: Our CNC machined parts are perfect for use in the medical industry. They can be used to manufacture parts such as surgical instruments, implants, and other critical components.

Electronics industry: Our CNC machined parts are also suitable for use in the electronics industry. They can be used to manufacture parts

such as computer components, mobile phone components, and other critical parts.

Our CNC machined parts are also suitable for a variety of scenarios, including but not limited to:

Prototyping: Our CNC machined parts are perfect for use in prototyping. They can be used to create prototypes quickly and accurately, allowing you to test your designs before committing to a full-scale production run.

Small-scale production: Our CNC machined parts are also suitable for small-scale production runs. They can be customized to meet your specific needs, allowing you to produce small quantities of parts quickly and efficiently.

Large-scale production: Our CNC machined parts are also suitable for large-scale production runs. With our supply ability of 1000000 Piece/Pieces per Month, we can produce large quantities of parts quickly and efficiently, ensuring that you can meet your production deadlines.

At Yuanwenyu, we take pride in our ability to produce high-quality CNC machined parts that meet the highest standards of quality and precision. We offer OEM/ODM services to ensure that your products are tailored to your specific needs. Contact us today to learn more about how our CNC machined parts can help you meet your manufacturing needs.

Customization:

We use top-quality packaging materials such as EPE foam, Anti-Rust Paper, Stretch Film, Plastic bag +Carton for all our products. We offer fast delivery times with our products reaching you within 1 day. Our payment terms are flexible, and we have a monthly supply capacity of 1000000 Piece/Pieces. The lead time for our products is 7-15 Days, and we offer customized packaging options with standard export carton or customized packaging tailored to your specific needs.

Our delivery method is fast and reliable, with options such as DHL, FedEx, UPS, Etc. We also offer surface treatments such as Anodizing, Plating, Painting, Etc. For your CNC machined parts, trust yuanwenyu for high-quality products and customized services.

Support and Services:

We also offer a range of services, including customization, prototyping, and production. Our state-of-the-art machinery and experienced technicians ensure that each part is manufactured to the highest standards of quality and precision.

Additionally, we provide comprehensive documentation and training materials to assist our customers in utilizing the product to its fullest potential.

Packing and Shipping:

Product Packaging:

All CNC Machined Parts will be carefully inspected and packaged to ensure safe delivery

Each part will be individually wrapped and labeled for easy identification

The parts will be placed in a sturdy cardboard box with ample padding to prevent damage during transit

Shipping:

We offer worldwide shipping

Shipping rates will be calculated based on the destination and weight of the package

We use reputable carriers to ensure timely and secure delivery

Customers will receive a tracking number once the package has shipped

FAQ:

Q1: What is the brand name of these machined parts?

A1: The brand name of these machined parts is yuanwenyu.

Q2: What is the minimum order quantity for these machined parts?

A2: The minimum order quantity for these machined parts is 50 pieces.

Q3: What is the packaging material used for these machined parts?

A3: The packaging material used for these machined parts includes EPE foam, Anti-Rust Paper, Stretch Film, Plastic bag, and Carton.

Q4: What is the delivery time for these machined parts?

A4: The delivery time for these machined parts is 1 week.

Q5: What is the supply ability of these machined parts?

A5: The supply ability of these machined parts is 1 million pieces per month.

Additional Information:

Model Number: 1X893, OEM

Place of Origin: Guangdong, China

Certification: 1

Price: \$2.35 - \$12.68/pieces

Payment Terms: 1
