

Professional CNC Machined Parts with $\pm 0.01\text{mm}$ Tolerance and Custom Plating Solutions

Our Product Introduction

For more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: yuanwenyu
- Certification: 1
- Model Number: 1X893, OEM
- Minimum Order Quantity: 50 pieces
- Price: \$2.35 - \$12.68/pieces
- Packaging Details: EPE foam/ Anti-Rust Paper/ Stretch Film/ Plastic bag +Carton
- Delivery Time: 1
- Payment Terms: 1
- Supply Ability: 1000000 Piece/Pieces per Month

Product Specification

- Drawing Format: PDF, DWG, IGS, STEP, Etc.
- OEM/ODM: Acceptable
- Surface Treatment: Anodizing, Plating, Painting, Etc.
- Application: Automotive, Aerospace, Medical, Etc.
- Quality Control: 100% Inspection Before Shipment
- Tolerance: $\pm 0.01\text{mm}$
- Packaging: Standard Export Carton Or Customized
- Lead Time: 7-15 Days
- Highlight: Professional CNC Machined Parts,
 $\pm 0.01\text{mm}$ Tolerance CNC Machined Parts,
Custom Plating CNC Machined Parts

Product Description

Product Description:

Our CNC machined parts are available in a variety of materials, including aluminum, steel, brass, and more. We understand that different projects require different materials, which is why we offer such a wide range of options. We also offer a variety of surface treatments, including anodizing, plating, painting, and more. No matter what your specific needs are, we can provide the surface treatment that will help your parts look and perform their best.

At our facility, we use the latest technology and techniques to craft precision machined parts that meet your exact specifications. We accept drawing formats in PDF, DWG, IGS, STEP, and more, so you can be sure that we can work with your existing files. And with a MOQ of just one piece, we're able to accommodate projects of any size.

Whether you're looking for OEM/ODM parts or Computer-Numerically-Controlled parts, our CNC machined parts are the perfect solution. Contact us today to learn more about how we can help you achieve your goals.

Features:

Product Name: CNC Machined Parts

Delivery Method: DHL, FedEx, UPS, Etc.

Surface Treatment: Anodizing, Plating, Painting, Etc.

Lead Time: 7-15 Days

Quality Control: 100% Inspection Before Shipment

Application: Automotive, Aerospace, Medical, Etc.

Our CNC Machined Parts are high-quality, computerized numerical cutting parts that are manufactured with precision and accuracy. We offer various surface treatments, such as anodizing, plating, and painting. Our lead time is 7-15 days, and we ensure 100% inspection before shipment to guarantee the best quality for our customers. These CNC-manufactured components are perfect for applications in the automotive, aerospace, medical, and many other industries.

Technical Parameters:

Technical Parameters	Details
Product Name	Computer-Numerically-Controlled parts
Other Names	Computer-aided machining parts, Precision machined parts
Tolerance	±0.01mm
Size	Customized
Lead Time	7-15 Days
Delivery Method	DHL, FedEx, UPS, Etc.
Packaging	Standard Export Carton Or Customized
Processing Method	CNC Machining, Turning, Milling, Etc.
Application	Automotive, Aerospace, Medical, Etc.
MOQ	1 Piece
Quality Control	100% Inspection Before Shipment
Drawing Format	PDF, DWG, IGS, STEP, Etc.

Applications:

Automotive Industry:

CNC-machined components are widely used in the automotive industry. They can be used to manufacture engine parts, suspension components, and steering systems. These parts are designed to withstand high pressure and extreme temperatures. For instance, engine blocks, cylinder heads, and crankshafts are made using CNC machining technology. They are also used in the production of brake calipers, rotors, and brake pads.

Aerospace Industry:

CNC-manufactured components are a vital part of the aerospace industry. They are used in the production of aircraft engines, landing gear, and other critical components. These parts are designed to meet strict safety and quality standards. CNC machining technology is used to manufacture parts that are lightweight, durable, and resistant to extreme temperatures and pressures.

Medical Industry:

CNC-machined components are used in the medical industry to manufacture surgical tools, implants, and diagnostic equipment. These parts must meet strict safety and quality standards. CNC machining technology is used to manufacture parts that are precise, accurate, and reliable. For instance, surgical tools such as scalpels, forceps, and probes are made using CNC machining technology.

Electronics Industry:

CNC-manufactured components are used in the production of electronic devices such as smartphones, laptops, and tablets. These parts must meet strict quality standards and are designed to be lightweight and durable. CNC machining technology is used to manufacture

parts such as heat sinks, chassis, and connectors.

In summary, Yuanwenyu's CNC machined parts are suitable for various industries and applications. They are manufactured using the latest technology and are available in different materials and sizes. The packaging is also designed to protect the parts during transit. The minimum order quantity is 50 pieces, and the price ranges from \$2.35 to \$12.68 per piece, depending on the material and size. The delivery time and payment terms are negotiable, and the supply ability is 1000000 Piece/Pieces per Month. The product is certified and meets international quality standards.

Customization:

With our customizable options, you can choose from a range of sizes and materials to suit your specific needs. Whether you're looking for a model number like 1X893 or an OEM product, we've got you covered.

Our products are made in Guangdong, China and come with certification 1, ensuring quality and reliability. Our minimum order quantity is just 50 pieces, and our prices range from \$2.35 to \$12.68 per piece.

We offer a range of packaging options, including EPE foam, anti-rust paper, stretch film, and plastic bags, all packed into sturdy cartons. Delivery time is just 1, and we accept a range of payment terms to suit your needs.

With a supply ability of 1000000 piece/pieces per month, we pride ourselves on our quality control, with 100% inspection before shipment. And with delivery methods like DHL, FedEx, and UPS, you can rest assured that your order will arrive on time and in great condition.

So if you're looking for high-quality, customizable CNC machined parts, look no further than yuanwenyu!

Support and Services:

Our CNC Machined Parts come with comprehensive technical support and services to ensure optimal performance and longevity of the product. Our experienced team of technicians is available to provide assistance with installation, operation, and maintenance of the parts. We also offer repair and replacement services to minimize downtime and keep your operations running smoothly. Additionally, we provide regular updates and improvements to our products to ensure they meet the latest industry standards and requirements. Contact us for more information on our technical support and services for CNC Machined Parts.

Packing and Shipping:

Product Packaging:

All CNC machined parts will be carefully packed to ensure safe delivery.

Parts will be wrapped in bubble wrap and placed in a sturdy cardboard box.

The box will be sealed with strong packing tape.

Shipping:

We ship worldwide.

All packages will be shipped via a reliable courier service such as DHL, FedEx, or UPS.

Customers will receive a tracking number to monitor their package's delivery status.

Shipping costs will be calculated at checkout based on the customer's location and the weight of the package.

FAQ:

Q1: What is the brand name of the CNC Machined Parts?

A1: The brand name of the CNC Machined Parts is yuanwenyu.

Q2: What is the minimum order quantity for the CNC Machined Parts?

A2: The minimum order quantity for the CNC Machined Parts is 50 pieces.

Q3: Where are the CNC Machined Parts manufactured?

A3: The CNC Machined Parts are manufactured in Guangdong, China.

Q4: What is the delivery time for the CNC Machined Parts?

A4: The delivery time for the CNC Machined Parts is 1 week.

Q5: What is the price range for the CNC Machined Parts?

A5: The price range for the CNC Machined Parts is \$2.35 - \$12.68/piece, depending on the model number and quantity ordered.

Q6: What is the packaging for the CNC Machined Parts?

A6: The packaging for the CNC Machined Parts includes EPE foam, Anti-Rust Paper, Stretch Film, Plastic bag, and Carton.

Q7: What is the payment term for the CNC Machined Parts?

A7: The payment term for the CNC Machined Parts is negotiable.

Q8: What is the supply ability for the CNC Machined Parts?

A8: The supply ability for the CNC Machined Parts is 1000000 Piece/Pieces per month.
